Fall 2017 WISE - Typography and Communication by the University of Illinois (2 credit hours): This course
will explore the importance of typography --the physical medium that transmits the message-- in the history of
communication. Students will learn how to identify various typefaces and discover how design, hierarchy, and
emphasis can impact communication. Students will not only learn the history of typography, but also develop
skill in composing a page of text and understanding the classical principles of layout. This course will begin
with a typographic foundation based on type classifications, terminology, and a brief history of writing and
printing technology. Students will work through a series of exercises with digital software and various texts in
order to provide hands-on experience with typography and to understand its central, yet subtle role in shaping
all written communication.
