**Course Topic:** RACE IN THE U.S.

Why and how is race still a central concern in our daily lives and national experience? This course, taught by a UNT tenured full professor, is designed to explore racial diversity concepts through highly interactive class discussions, group tasks, key readings, and application to current local and national affairs. Course content will be grounded in psychological theory and research, and historical understanding of how race has been socially constructed and situated in the U.S. This transformative course will give you the tools to have productive discussions and interactions relative to race and race/sex/social class/gender identity intersections, to better understand yourself with respect to these various identities, and to provide leadership with respect to the critical concepts associated with race.
