The release of the internet in the late twentieth century promised us the freedom to travel the world from the comfort of our own homes. The innovation of social media sites like Facebook, Twitter, and Instagram were meant to put us into close communication with those distant from us either because of years or miles. Yet, it is worth considering whether this new virtual reality, where at the tips of our fingers news breaks alongside relationships, is not at all a freedom but a prison. Where we obsess over how many “likes” our selfie gets, or whether or not to comment on a post by our ex-partner. This seminar asks, how are we disciplined in managing our profiles in the world of social media? Together as a class we will create a persona and delve into the waters of Facebook, FarmerOnly.com, and other platforms in order to discuss anthropologically how we navigate our sociality, sexuality, politics, morality, and ultimately ourselves in the virtual world.
