INFO 4970  IS INST SEMINAR

Digital Humanities Projects - This course examines the growing field of Digital Humanities (DH) which lies at the intersection of technology, literature, history, philosophy, art, and cultural heritage. Understanding DH concepts and technologies can empower students and improve their analytic and communicative skills. We will focus on investigating key concepts and technologies in DH which allow for cultural analytics, data visualization, data mining, and digital archiving among others. Through embedded course assignments, students will gain the skills to create and manage projects (such as online exhibits, timelines, and other multi-modal texts) using emerging DH tools and software.
