Applied Arts & Sciences: Professional Development Concentrations

Students must complete 36 hours of Professional Development consisting of two or three separate multidisciplinary concentrations which serve to enhance the skills a student has acquired through prior education or are complimentary to the student's career plans.

The concentrations may come from any department at UNT or may consist of technical/professional coursework already completed at a community college (or in the military) as part of an associate's degree.

Applied Arts & Sciences: Unifying Courses

Students must complete three interdisciplinary courses (9 hours) with a grade of C or higher from the New College to satisfy foundational skills in:

- BAAS 3000—Pathways to Civic Engagement
- BAAS 3020—Fundamentals of Inquire & Discovery
- BAAS 4100—Managing a 21st Century Career

No TCCNS options available.

Applied Arts & Sciences: Occupational Specialization

Comprised of courses related to a specific occupation, field or subject. It typically consists of the field or occupationally-specific coursework completed for an associate's degree. Active-duty military or veterans may be able to apply technical or other formal training courses eligible for academic credit under this component of the degree.

The occupational specialization is often transferred from a community college as part of an associate of applied science degree or professional certificate.

Applied Arts & Sciences: Electives

For many Applied Arts and Sciences students who have completed an associate's degree, elective hours consist of additional occupationally specific credits that were not applied to the student's Occupational Specialization.

In selecting electives, students should exercise caution to ensure they fulfill UNT's requirement of 36 hours of advanced-level course work.

Please note a lower-level course that is determined to be substituted for a UNT upper-level course does not satisfy the requirements of advanced hours.

2022-2023 Texas Common Course Numbering System Transfer Guide

Special Notes

Hours Required and General/College Requirements: A minimum of 120 semester hours, of which 36 must be advanced, and fulfillment of degree requirements for the Bachelor of Applied Arts and Science degree as specified in the general university requirements section of the UNT catalog and the New College requirements.

UNT Core Curriculum/Transfer of Core Curriculum: UNT complies with the [mandates of the 1997 Texas Legislature](#) regarding requirements for state-assisted institutions. Students who successfully complete the common core curriculum (in whole or in part) at a Texas state-assisted institution of higher education are eligible to transfer as “core complete” for those categories in the UNT University Core Curriculum.

Individual academic programs may require courses contained in parts of the University Core Curriculum. Students who wish to take courses that will fulfill both core and major/program requirements simultaneously should check with academic advisors for assistance in selecting core courses.

Choice of Catalog: Any student transferring directly from a Texas public community college to UNT shall have the same choice of catalog designating degree requirements as the student would have had if the dates of attendance at the university had been the same as the dates of attendance at the community college.

The New College required curriculum and policies are located in the [undergraduate catalog](#) under the corresponding catalog year.
