2017-2018 Texas Common Course Numbering System Transfer Guide OF NORTH TEXAS*

This four-year plan provides a model for on-time completion of this UNT program using as many TCCNS courses as possible. The four-year plan also shows the first point when no TCCNS options are available for this program. See the current <u>Undergraduate Catalog</u> for course prerequisites. Course availability at UNT is subject to change, and the plan shown below may change based on updates to UNT's course offerings.

UNT courses noted (#) do not have TCCNS equivalents, but have approved transferable substitutions.

B.A. Biochemistry

2017-2018 Texas Common Course Numbering System Transfer Guide OF NORTH TEXAS*

The College of Science expects students to have completed the Texas State recommended high school program and be ready to enroll in Language 2040 (TCCNS: Language 2311). If you are not prepared for this level, the necessary prerequisites will either replace electives or increase the hours required for this degree.

Courses Recommended for Transfer

The UNT Core requirements, with the exception of American History and the College & Major requirements, are shown with Texas Common Course Numbering System values only when UNT offers equivalent courses. There may be other courses in transfer that apply toward the specific degree requirement, but those listed are known to apply.

UNT Core: Communication	UNT Core: Component Area Option Category I	
This requirement will be met by fulfilling the B.A. Biochemistry Communication requirement (see next column).	One course chosen from: ARTS 1301; BIOL/HECO 1322; COMM 1307; MATH 2305 or 2405; SPCH 1311 or 1315; TECA 1303	
UNT Core: Mathematics	UNT Core: Component Area Option Category II	
This requirement will be met by fulfilling the B.A. Biochemistry major mathematics requirement (see next page).	This requirement will be met by fulfilling the Biology minor requirements (see next page).	
UNT Core: Life & Physical Sciences	College of Science Core: Foreign Language	
This requirement will be met by fulfilling the B.A. Biochemistry major requirements (see next column).	Any foreign language 2311 and 2312.	
major requirements (see next column).	Courses must be taken in the same language.

- Students in the department whose UNT or overall grade point average drop below the minimum GPA for two consecutive semesters will be removed from the program.
- Only two attempts will be allowed for each biology and biochemistry course in this degree.

Special Notes

Hours Required and General/College Requirements: A minimum of 120 semester hours, of which 42 must be advanced, and fulfillment of degree requirements for the Bachelor of Arts degree as specified in the <u>General University Requirements</u> section of the UNT catalog and the College of Science requirements

UNT Core Curriculum/Transfer of Core Curriculum: UNT complies with the <u>mandates of the 1997 Texas Legislature</u> regarding requirements for state-assisted institutions. Students who successfully complete the common core curriculum (in whole or in part) at a Texas state-assisted institution of higher education are eligible to transfer as "core complete" for those categories in the UNT University Core Curriculum.

Individual academic programs may require courses contained in parts of the University Core Curriculum. Students who wish to take courses that will fulfill both core and major/program requirements simultaneously should check with academic advisors for assistance in selecting core courses.

Choice of Catalog: Any student transferring directly from a Texas public community college to UNT shall have the same choice of catalog designating degree requirements as the student would have had if the dates of attendance at the university had been the same as the dates of attendance at the community college.

The College of Science required curriculum and policies are located in the $\underline{undergraduate\ catalog}$ under the corresponding catalog year.
