WEB DESIGN FOR JOURNALISM

This is an internet course. Course enrollment is restricted and non-Texas resident students residing outside of the state are not eligible to enroll in this section. Contact the department for enrollment assistance in an appropriate section of the course if applicable.

This course is an overview of online design and an introduction to coding for designers, with an emphasis on thinking mobile first. We will use a case study approach and evaluate the design and production of web applications for journalism, advertising and public relations. After the case studies section, students will incorporate best practices for user experience (UX) and plan and produce an interactive design of a web application for digital storytelling (this can be on behalf of a newsworthy topic, for a client or a campaign). Throughout the course students will work on front-end coding skills and investigate the affordances of various languages and libraries for web design.
