**Course Topic:** SCHEMA THEORY

This course studies the use in eighteenth- and nineteenth-century music of stock harmonic/melodic patterns (schemas) that would have been readily recognizable by a contemporary and/or historical informed listener. After studying the flourishment of many of these patterns in the galant period (about 1730-1790), we will examine their decay in the century that followed, and the significance that this decay had for the way in which these patterns were stylized. In so doing, we will discuss the writings of Gjerdingen, Byros, Meyerm Caplin, among others, while also developing our own ideas through close analysis of several works. While the focus of the course will be on eighteenth- and nineteenth-century European music, the final project will give students the opportunity to study a different repertory from the point of view of schema theory.
