THIS COURSE ADDRESSES THE SOCIETY, CULTURE AND POLITICS OF THE CONTEMPORARY MIDDLE EAST. IT IS THE COMPANION COURSE TO ANTH 3500, PEOPLES AND CULTURES OF THE MIDDLE EAST, BUT CAN BE TAKEN WITHOUT HAVING TAKEN THAT CLASS BEFORE.
ANTHRO. & SOCIAL MEDIA CULTURE

Is our new virtual reality, where at the tips of our fingers news breaks alongside relationships, less a kind of freedom and perhaps more a prison where we obsess over how many ‘likes’ our selfie gets, or whether or not to comment on a post by our ex-partner? This seminar asks, ‘How are we disciplined in managing our profiles in the world of social media?’ Together as a class we will create a person and delve into the waters of Facebook, Famersonly.com and other platforms in order to discuss anthropologically how we navigate our sociality, sexuality, politics, morality, and ultmate ourselves in the virtual world.

FULL TOPIC: ANTHROPOLOGY AND SOCIAL MEDIA CULTURE

SEX, GENDER, AND CULTURE

We will examine issues, debates, and perspectives important to understanding gender and sex through an anthropological lens. We will examine theories of the social construction of sex and gender, and analyze various cultural contexts to understand the different meanings people hold about the concepts we call ‘gender’ and ‘sex.’ The first half of the course offers a historical look at the development of feminist anthropology, focusing on important themes of study and debates within the field. We will also analyze the insights that feminist anthropology brought the study of anthropology as a discipline. In the second half of the course, we will apply the theories and concepts we have learned to ‘think like a feminist anthropologist’ about topics related to sex and gender, including gender identities and practices across the globe, kinship and family, the body, sex work, and more.

HUMAN RIGHTS

This course will focus on the events that led to the burgeoning of human rights as a concept and as something in need of protection. We will examine the global, regional, and local ideologies and doctrines at the heart of human rights violations and studies. These ideologies and doctrines include militarism, extremism, relativism, liberalism, and neoliberalism. The human rights violations addressed in this course will include genocide, ethnocide, mass violence, mass disappearances, gendered violence, child soldiering, human trafficking, and other forms of political and structural violence.
