B.A. Biology

Secondary Education Certification in Life Science

2010-2011 Texas Common Course Numbering System Transfer Guide

- Entering students interested in majoring in biology will be classified as pre-majors and will be advised by the department. Admission to the university does not guarantee admission to the major.
- To be admitted to the major (and be eligible to enroll in advanced biology courses), a pre-major must meet all the requirements listed in "Admission to the Major" on page two.
- The College of Arts and Sciences encourages students to explore teaching at the secondary level as a career option. Students seeking secondary teacher certification should contact the Teach North Texas in the College of Arts and Sciences.
- The College of Arts and Sciences expects students to have completed the Texas State recommended high school program and be ready to enroll in Language 2040 (TCCNS: Language 2311) or a mathematics course above college algebra. If you are not prepared for this level, the necessary prerequisites will either replace electives or increase the hours required for this degree.
