### 2010-2011 Texas Common Course Numbering System Transfer Guide

- The undergraduate program is designed for persons wishing to pursue graduate study in speech-language-pathology and audiology and offers an avenue for students interested in pursuing other health professions, teaching, psychology, medicine, gerontology or law.
- Undergraduates are introduced to the clinical aspects of speech-language pathology and audiology through course work, clinical experiences and laboratory work at the UNT Speech and Hearing Center.
- The College of Arts and Sciences expects students to have completed the Texas State recommended high school program and be ready to enroll in Language 2040 (TCCNS: Language 2311) or a mathematics course above college algebra. If you are not prepared for this level, the necessary prerequisites will either replace electives or increase the hours required for this degree.
