

- Students who earn degrees in mathematics readily obtain jobs with high-technology companies and in business, industry, government and teaching. Salaries and working conditions compare with those of engineers and scientists.
- Students who plan to major in mathematics, physics, chemistry, biology or computer science should have had four years of mathematics in high school, including pre-calculus. Students who are required to take mathematics as part of their degree program in college should have had at least two years of algebra and one year of geometry in high school.
- The Bachelor of Arts degree in Mathematics enforces prerequisites for MATH 1314 or 1414, 1325 or 1425, 1350, 1316, 2312 or 2412, and 2313 or 2413 or 2513. These prerequisite courses require completion with grade of "C" or better, or UNT mathematics department approval.
- The College of Arts and Sciences encourages students to explore teaching at the secondary level as a career option. Students seeking secondary teacher certification should contact the Teach North Texas Program in the College of Arts and Sciences.
- The College of Arts and Sciences expects you to have completed the State recommended high school program and be ready to enroll for Language 2040 (TCCNS: Language 2311) and a college level mathematics course. If you are not prepared for this level, the necessary prerequisites will either replace electives or increase the hours required for the degree.
