Applied Arts & Sciences: Occupational Specialization

Comprised of courses related to a specific occupation, field or subject. It often consists of field-specific course work completed for an associate's degree at a community college. Active-duty military or veterans may receive credit for technical or other formal training courses under this component of the degree plan. Other students who have not completed an occupational specialization through courses taken in a community college or in the military may create one by selecting a primary area of study, in consultation with an advisor.

Applied Arts & Sciences: Unifying Courses

No TCCNS options available.

Applied Arts & Sciences: Professional Development Concentrations

Students must complete 36 hours of Professional Development consisting of two or three separate concentrations, each of which consisting of a minimum of 12 credit hours, that serve to enhance the skills a student has acquired through prior education or are complimentary to the student's career plans.

Applied Arts & Sciences: Electives and Other Requirements

Any UNT or transfer courses the student and advisor deem appropriate to the degree may be selected. Caution must be exercised to ensure the student fulfills the following requirements:

- The university's requirement of 36 hours of advanced-level work
- The program's requirement of at least 24 hours of advanced-level work taken at UNT

Note: A lower-level transfer course that is determined to be equivalent to a UNT upper-level course does not satisfy the requirement for advanced hours.

Special Notes

Hours Required and General/College Requirements: A minimum of 120 semester hours, of which 36 must be advanced, and fulfillment of degree requirements for the Bachelor of Applied Arts and Science degree as specified in the general university requirements section of the UNT catalog and the New College requirements.

UNT Core Curriculum/Transfer of Core Curriculum: UNT complies with the mandate of the Texas Legislature regarding [Core Requirements](#) for state-assisted institutions. Students who successfully complete the common core curriculum (in whole or in part) at a Texas state-assisted institution of higher education are eligible to transfer as "core complete" for those categories in the UNT University Core Curriculum.

Individual academic programs may require courses contained in parts of the University Core Curriculum. Students who wish to take courses that will fulfill both core and major/program requirements simultaneously should check with academic advisors for assistance in selecting core courses.

Choice of Catalog: Any student transferring directly from a Texas public community college to UNT shall have the same choice of catalog designating degree requirements as the student would have had if the dates of attendance at the university had been the same as the dates of attendance at the community college.

The New College required curriculum and policies are located in the [undergraduate catalog](#) under the corresponding catalog year.
