Teacher Certification Option

The College of Engineering offers the Bachelor of Arts degree with major in Information Technology leading to certification in Computer Science.

A minor in Mathematics and Science Secondary Teaching administered by Teach North Texas is required for the certification in Computer Science.

Teach North Texas Minor Requirements: Students must complete the required 22 hours for the minor in Mathematics and Science Secondary Teaching and meet all GPA requirements to apply for state certification. Students should contact the Teach North Texas program for more information on enrolling in the certification courses. No TCCNS options available for Teach North Texas requirements.

A 2.75 GPA is required on all courses counting toward the Mathematics and Science Secondary Teaching Minor, see current UNT Undergraduate Catalog for all minor requirements.

Teacher Certification: To be certified to teach in the State of Texas, the student must successfully pass the following exams:

Exam #1 TExES: Pedagogy & Professional Responsibilities (EC-12)
Exam #2 TExES: Computer Science (7-12)

Additional requirements for Teacher Certification in Computer Science include a 2.5 overall GPA (including all transferred courses), a 2.5 UNT GPA and a 2.5 major GPA.

For information about this option, please contact the College of Engineering.

*Information Technology: Recommendation for COSC

TCCNS options:

- COSC 1336 or 1436
- COSC 1337 or 1437

Due to the content of COSC 1035 and 1045 at UNT, it is in the student's best interest to take both Freshman COSC courses at a community college before transferring to the Information Technology program.

If only COSC 1336 or 1436 is taken, the student may have to take additional CSCE coursework at UNT before being allowed to continue with the program.

Special Notes

Hours Required and General/College Requirements: A minimum of 120 semester hours, of which 36 must be advanced, and fulfillment of degree requirements for the Bachelor of Science degree as specified in the general university requirements section of the UNT catalog and the College of Engineering requirements.

UNT Core Curriculum/Transfer of Core Curriculum: UNT complies with the mandate of the Texas Legislature regarding [Core Requirements](#) for state-assisted institutions. Students who successfully complete the common core curriculum (in whole or in part) at a Texas state-assisted institution of higher education are eligible to transfer as “core complete” for those categories in the UNT University Core Curriculum.

Individual academic programs may require courses contained in parts of the University Core Curriculum. Students who wish to take courses that will fulfill both core and major/program requirements simultaneously should check with academic advisors for assistance in selecting core courses.

Choice of Catalog: Any student transferring directly from a Texas public community college to UNT shall have the same choice of catalog designating degree requirements as the student would have had if the dates of attendance at the university had been the same as the dates of attendance at the community college.

The College of Engineering required curriculum and policies are located in the [undergraduate catalog](#) under the corresponding catalog year.
