B.S. Project Design & Analysis

2024-2025 Texas Common Course Numbering System Transfer Guide

This four-year plan provides a model for on-time completion of this UNT program using as many TCCNS courses as possible. The four-year plan also shows the first point when no TCCNS options are available for this program. See the current [Undergraduate Catalog](#) for course prerequisites. Course availability at UNT is subject to change, and the plan shown below may change based on updates to UNT's course offerings.

First Year Fall		First Year Spring

B.S. Project Design & Analysis

2024-2025 Texas Common Course Numbering System Transfer Guide

Courses Recommended for Transfer

The UNT Core requirements are shown with Texas Common Course Numbering System values only when UNT offers equivalent courses. There may be other courses in transfer that apply toward the specific degree requirement, but those listed are known to apply.

Project Design & Analysis: Major Requirements

No TCCNS options.

The B.S. Project Design & Analysis program is a cohort-based program for incoming high school graduates only. Transfer students who are interested in this field are encouraged to look into the Applied Project Design & Analysis program.

This program also provides an opportunity for students to complete a degree within three years.

Project Design & Analysis: Additional Requirements

A minimum grade of 'C' is required in each course in the major; a minimum UNT GPA of 2.0 and a minimum GPA of 2.50 in the major is required for graduation.

Project Design & Analysis: Grad Track Option

The B.S. in Project Design & Analysis major has a grad track option leading to a M.S. in Data Analytics. For more information, review the UNT undergraduate catalog and consult a UNT advisor.

Special Notes

Hours Required and General/College Requirements: A minimum of 120 semester hours, of which 42 must be advanced, and fulfillment of degree requirements for the Bachelor of Science degree as specified in the General University Requirements section of the UNT catalog and the College of Applied & Collaborative Studies requirements.

UNT Core Curriculum/Transfer of Core Curriculum: UNT complies with the mandate of the Texas Legislature regarding [Core requirements](#) for state-assisted institutions. Students who successfully complete the common core curriculum (in whole or in part) at a Texas state-assisted institution of higher education are eligible to transfer as "core complete" for those categories in the UNT University Core Curriculum.

Individual academic programs may require courses contained in parts of the University Core Curriculum. Students who wish to take courses that will fulfill both core and major/program requirements simultaneously should check with academic advisors for assistance in selecting core courses.

Choice of Catalog: Any student transferring directly from a Texas public community college to UNT shall have the same choice of catalog designating degree requirements as the student would have had if the dates of attendance at the university had been the same as the dates of attendance at the community college.

The College of Applied & Collaborative Studies required curriculum and policies are located in the [undergraduate catalog](#) under the corresponding catalog year.
